Professional Study Tool and Reliable Exam Practice Material

Exam : **74-325**

Title : Administering Office 365 for
Small Businesses

Vendor : Microsoft

Version : DEMO

NO.1 Which three criteria can Exchange Online Protection use to block email messages? (Each correct answer presents a complete solution. Choose three.)

- A. ip address
- B. language
- C. country or region
- D. fully qualified domain name (FQDN)
- E. email server type

Answer: A,B,C

Explanation:

A: Connection filtering

The spam filters first check the IP Allow and IP Block lists and filter inbound messages according to the specifications of both lists. Messages that are sent from allowed IP addresses are not subject to further spam filtering; for example, content filtering is bypassed. Furthermore, messages from an IP address that appears on both lists are allowed. IP Allow and IP Block lists are empty by default and must be configured by editing the default connection filter policy.

BC: Content filtering include International Filtering:

You can choose to filter email messages written in specific languages, or sent from specific countries or regions.

NO.2 You need to choose an Office 365 subscription plan that provides unlimited mailbox archive storage space. Which three plans meet the requirements? (Each correct answer presents a complete solution. Choose three.)

- A. Office 365 Enterprise E4
- B. Office 365 Midsize Business
- C. Exchange Online Plan 1
- D. Exchange Online Plan 2
- E. Office 365 Enterprise E3

Answer: A,D,E

Explanation:

D (not C): Exchange Online Plan 2 (but not Exchange Online Plan 1) includes:

Unlimited storage: Take advantage of unlimited storage (50 GB of storage in the user's primary mailbox, plus unlimited storage in the user's In-Place Archive).

NO.3 Your company has an Office 365 Enterprise E1 subscription.

You need to remove a user's Microsoft Exchange Online mailbox without removing access to Microsoft SharePoint Online, Lync Online, Office Professional Plus, or other eligible services.

What should you do?

- A. Remove the user's mailbox by running a Windows PowerShell cmdlet.
- B. Change the user to an Office 365 E3 subscription.
- C. in the Exchange admin center, delete the mailbox.
- D. In the Office 365 admin center, remove the Exchange Online license-

Answer: C

NO.4 Which three statements about the computer that runs the Windows Azure Active Directory Sync tool are true? (Each correct answer presents a complete solution. Choose three.)

- A. The computer can run Windows Server 2003 Service Pack 2.
- B. The computer must run a 64-bit version of Windows.
- C. The computer must be joined to the domain or forest that you plan to synchronize with Office 365.
- D. The computer must be able to communicate with all domain controllers.
- E. The computer must be a domain controller.

Answer: B,C,D

Explanation:

The computer used for Directory Synchronization must meet the following requirements:

-(C, D) It must be joined to the on premise Active Directory. It must be able to connect to all of the other Domain Controllers (DCs) for all of the forest.

-(not E) It cannot be a domain controller (thus can't be run on SBS).

-(B) It must run on a supported 64 bit Windows Server system which is:

o 64 bit version of Windows Server 2008 R2 SP1 Standard, Enterprise or Datacenter

o 64 bit version of Windows Server 2012 Standard or Datacenter

-It must run Microsoft .NET Framework version 3.5 SP1 and .NET Framework version 4.0

-It must run Windows PowerShell.

-It must be located in an access controlled environment.

Note:

Windows Azure Active Directory Sync tool (DIRSYNC) is an application that provides one way synchronization from a company's on premise Active Directory (AD) to Windows Azure Active Directory.

NO.5 Your company plans to permit users to connect their own computers to corporate resources. You need to prevent specific types of devices from connecting to your Microsoft Exchange environment.

What should you create?

- A. a mail flow rule that prevents mail delivery to the device types
- B. an Outlook Web App policy that disables device types
- C. a device mailbox policy that denies access to the device types
- D. a device access rule that denies access to the device types

Answer: D

NO.6 What mailbox data does an IMAP migration process migrate?

- A. Contacts
- B. All email messages
- C. Calendars
- D. Only email messages larger than 35 MB

Answer: B

NO.7 What does a mobile device mailbox policy allow a Microsoft Exchange Online admin to do?

- A. Set criteria for connections to the Exchange Online servers

- B. Quarantine devices or allow or block connections based on the device type
- C. Provide remote assistance to mobile device users over the Internet
- D. Monitor the behavior of users' mobile devices

Answer: A

NO.8 Which three products does Office 365 include? (Each correct answer presents a complete solution. Choose three.)

- A. Microsoft Office Standard
- B. Microsoft Lync Online
- C. Microsoft Exchange Online
- D. Microsoft System Center
- E. Microsoft SharePoint Online

Answer: A,B,C

Explanation:

"Office 365" refers to subscription plans that include access to Office applications plus other productivity services that are enabled over the Internet (cloud services), such as Lync web conferencing and Exchange Online hosted email for business, and additional online storage with SkyDrive and Skype world minutes for home.

NO.9 Your company has an Office 365 Enterprise E3 subscription for 60 users.

How much Microsoft SharePoint Online storage space does the subscription include?

- A. 30 GB
- B. 40 GB
- C. 60 GB
- D. 70 GB

Answer: B

NO.10 How many Microsoft SharePoint Online site collections does the Office 365 Small Business Premium plan include?

- A. 1
- B. 2
- C. 20
- D. 100

Answer: A
